Reflections of a year gone by...
The 6th hour Spanish II class had a unique learning experience. For the last six weeks of the grading period, the class went to Central Elementary and taught Spanish to the 3rd and 4th graders two days a week. The cadet teaching program had a dual purpose. First, to acquaint the elementary school children with a small taste of Spanish in case any of them would like to take it as a regular course in junior high. And second, to test the knowledge of the cadet teachers and to get a sample of the teaching process. Some of the cadet teachers commented that they spent more time preparing for this than for any other of their classes. All in all, the program did seem beneficial to all parties concerned. Those who were directly involved feel it should become an annual activity. The children really seemed to enjoy the mini-course and so did the cadet teachers. Our thanks to everybody for their cooperation and making this experiment possible.
