in dedication...

This 1982 yearbook is dedicated to Suzi Chupp for her dedication to our school as a photographer, athletic booster, cheerleading sponsor and friend.
Remember the 1981-82 school year? Drudgery was overthrown and the famous Chief Spirit returned to the halls of WPHS. The Preppy look finally made it here, but the layered-look prevailed because of the heatless hallways and classrooms. And when other schools had to "Pay to Play" or even close their doors, we here at WPHS were lucky enough to come out of it with our best foot forward!

From a wider view, rock singers such as Billy Squires hit the teenagers with "Stroke Me." And the new teenage heartthrob, Rick Springfield, better known as Noah Drake on the number one soap 'General Hospital' rocketed to number one on the record charts with his hit "Jesse's Girl."

All these events have been only a background for the 109th graduating class of WPHS. But it is one background they will never forget.

Football games, Spirit Weeks, the Senior trip, Snow Days, no heat.....these were just some of the events that went into the making of our year.
A year is not worth remembering unless it includes those special moments tucked away in our heads. Think back...
STUDENT LIFE
Senior John Luttmann won first place and grand prize in his division with his chess set at State competition in Grand Rapids. This was the first time that someone from White Pigeon has placed first at State. He also won first place and grand prize at Regionals in Portage.

This year's D.A.R. representative for White Pigeon High School is Lori Chupp. D.A.R. stands for Daughters of the American Revolution. One person is selected from each high school to represent his or her school.

Four seniors from White Pigeon came out on top of over 600 students competing at the recent Model United Nations held at Hope College, March 11 and 12.

Tom Grabe and Grant Medich, after discussing their topic which dealt with the crisis in Namibia, received a plaque for first place in their security council.

In another security council, Angie McCarrel and Sara O'Sullivan combined their efforts to receive second place for their discussion of the use of chemical warfare in southeast Asia. Their second place prize was a gavel. Both awards will be displayed in the high school trophy case.
Okuni Comes To W. P.

Kuniyo, a senior, is White Pigeon's newest exchange student who transferred from Cedar Springs, Michigan. Her parents live in Osaka, the second largest city in Japan. She has an older brother and sister and one younger brother. Kuniyo keeps in touch with her family by calling every two weeks and writing about once a week.

Cast, Harman, Top Two Seniors

When I began to write this speech, I wanted to say things that aren't said in every speech on graduation day. I found, however, that it is a difficult task, because I think that although we are each individuals, we all have many of the same mixed emotions on this day. We may feel sadness, happiness, anxiety, fears, hopes...and none of us are quite sure of just where we will be tomorrow.

As I stand before each of you today - parents, faculty, friends, and my fellow graduating seniors - I see reflections of past experiences and visions of what tomorrow might bring.

I am here, as so many before me have been, to summarize our school years, and to give recognition to all of our deserving supporters. It's very difficult to summarize thirteen years into one short speech - probably the hardest task I've ever been assigned. In order to give these past years and all of the people who have made them possible due recognition, I would first like to thank:

Our parents. I am sure that I speak for all of my classmates when I say, "Thank you Mom and Dad." It's been your support and love and understanding that has put us here today. You were always there for us. You've helped us through good and bad and what we owe you cannot ever truly be repaid. I hope that the pride you feel today is payment enough.

To the faculty and administration: I want to thank you for providing us with a base from which to grow. You've given us a start and now each of us must take the knowledge that we've gained and build ourselves to be the best that we can be.

To our many, many friends among the underclassmen: You'll be here someday and you won't know what happened to your high school years. As you look ahead, I am sure you see an eternity of tests, teachers, and seemingly never-ending days. As I look back, I see years that have flown right past me, and once again I am looking ahead. Enjoy this time and don't ever take for granted the many friends you've made. You'll miss them some day, much as we'll miss you.

Finally, to my classmates: In a few short minutes all of this will be behind us. It's time for us to be what we have only talked about being and do what we have only imagined. There are so many decisions to be made. Whatever you decide, respect yourself for that choice and I hope that you will gain success and happiness from it. Do what you do to the best of your ability, and don't ever quit striving for your dream.

Set goals for yourselves, and be careful not to live life like there's no tomorrow. For tomorrow will come, just as it always has. If you have plans and dreams, you can achieve whatever it is you wish. You can be whatever you want to be. Always remember though, whatever you make of your lives, make yourselves proud.

I feel like I'm saying goodbye to my family today. For the past thirteen years, we've grown up together. We've played together, we learned to read together, to write together, we've laughed together, and we've grown to love and respect one another. The closeness that we have felt as a class is unlike any that I can ever remember. We have always been proud of the fact that we are the Class of 1982.

We've all made some wonderful friends here, and although some of us may never see one another again, we always have our memories. There are so many things that I could say today, so many memories about which I could reminisce. But I'm sure that we all have our own special feelings for one another, and those are feelings that we will always cherish.

I leave you today to remember the good times, the good friends, and the treasured moments of our past years together. To the graduating Class of 1982: May your days be bright and your lives be long and filled with much happiness.

Thank you
Cristi Harman
Salutatorian

Manuel, who is 18 years old, is staying with the Rex Lucas family in White Pigeon. He left Chile August 27 and arrived at the Detroit Airport on the 28th as part of the Youth For Understanding Program.
Good afternoon and welcome to the graduation exercises for the Class of 1982.

Throughout history, man has desired to understand what makes a life good. The end of philosophy itself, some say, is the discovery of what the ‘good’ life actually is and how we, as human beings, can obtain it. At this moment in time, each of us is trying to put our lives in some form of perspective.

Our minds are filled with thoughts of remembrance. Memories of past accomplishments and friendships can never be erased, only enhanced with time. Soon our graduation itself will join our list of accomplishments and cherished memories.

Now we have reached the threshold of our own destinies; the time in our lives when we, as human beings, are responsible for our own decisions and are truly able to go in quest of our own personal utopia, or ideal, of the ‘good’ life. Henry Wadsworth Longfellow expressed his ideals in his poem “The Builders”.

The Builders
All are architects of Fate
Working in these walls of Time;
Some with massive deeds and great;
Some with ornaments of rhyme.
For the structure that we raise,
Time is with materials filled;
Our todays and yesterdays
Are the blocks with which we build.
Let us do our work as well,
Both the unseen and the seen;
Make the house where gods may dwell
Beautiful, entire, and clean.
Else our lives are incomplete,
Standing in these walls of Time,
Broken stairways, where the feet
Stumble, as they seek to climb.
Build today, then, strong and sure,
With a firm and ample base;
And ascending and secure
Shall tomorrow find its place.
Thus alone can we attain
To those turrets, where the eye
Sees the world as only vast plain,
And one boundless reach of sky.

Only each person can realistically judge what certain possessions and qualities he feels are necessary to attain his ultimate happiness in life. For instance, a man who seeks comfort in his existence may believe monetary wealth and possessions, such as owning a big and beautiful house and a sports car, would lead to a full life. A humanitarian, however, may feel that only service to others, such as working in the Peace Corps, would achieve the utmost good.

Towards the attainment of a ‘good’ life, opportunity exists as a main factor. A famous phrase states, ‘Opportunity only knocks once.’ Personally, I feel this phrase is only partially correct. Opportunity may knock more than once but it is the responsibility of the individual to wisely decide whether or not to open the door and let it in.

We must choose the right opportunities in our lives in order to reach the horizon of true happiness, and it is this freedom to choose which allows us to truly control our own human destiny.

As we continue our search for the right opportunities, we must also encounter challenges. In the stream of life, challenges are the rocks which bar your way downstream to eternity. Until you conquer these challenges by dislodging them, you will never really reach your true goal of a ‘good’ life.

After overcoming one challenge, you proceed to discover bigger and more important goals to strive for and attain. Relating this to life’s stream, the rocks we have moved begin to wear down and become smooth, thus aiding to calm the turbulent currents as the water flows onward.

This seeking of challenges is a fundamental part of the life of every human being who wishes to reach a philosophical Xanadu, a place where dreams come true. Without it, man would not continue to better himself as a person and thus the valuable inner growth, essential for life itself, would remain stagnant.

Education guides individuals towards the accomplishment of a good life. In order to distinguish important opportunities, it becomes necessary to be educated. High school has presented us with a foundation for further learning. But this education need not be in the classroom, because human experience itself adds to our useful store of knowledge.

Thus education is an everlasting process and it is up to us to make use of our knowledge. In our ever-changing world, wisdom gives us the tool to evaluate doors to new horizons and other facades of life. Ignorance obviously helps to allow these doors to remain closed. We cannot be afraid of opening the way to our dreams and applying our knowledge.

A life of fear cannot possibly lead to one of true happiness and worth. One goal hopefully achieved by a good educational system is a certain flexibility towards different ideals that could open up new opportunities in our lives. We must not shut out the beliefs of others, but must learn to keep our minds open. Once we refuse to acknowledge different ideals, our lives and beliefs become isolated. Education shows us how to avoid the isolation of how we think and lead our lives.

Every human being created is individual. Individuality is defined as the qualities which distinguish one person from another or the state of being individual. Thus we were made to be different and not to be slaves to conformity.

We can never be truly happy and attain our ultimate goal of a good life if we always conform to the beliefs of others. Henry David Thoreau once said, “The mass of men lead lives of quiet desperation.” Thoreau was referring to the fact that many human beings resign themselves to the fate of letting someone else decide how they should look or feel. They are afraid of individuality. A life of such resignation can only lead to an existence of mediocrity and conformity.

You can never truly attain a good life if you are in fear of being yourself. Once one gives up individuality, it becomes more difficult to judge what opportunities and decisions are honestly essential for your true goals in life. The attainment of individuality is a goal each of us should be striving for in our lives.

I hope that each of my fellow graduates is able to conquer the challenges and find the opportunities of which life consists, and that they achieve the ultimate goal of the human being - true happiness and individual worth.

Thank you,
Todd Cast

I, BILL SLACK, being of short mind and tall body, will the following to a few of my somewhat friends: To Crash, I will some money so he can pay me back, to Opposition I will my height so he won’t be so short, to Rip my ability to get c’s and D’s in a class, To Haif my ability to get mad on the golf course, to Stambaugh the ability to meet students other than Don and me at bars, and to my fellow classmates may all of your dreams come true.
I, VINCE SOMMERLOTT, will to Timm 'Bud' Morey all of the rowdiness we had this year so he can get even rowdier his Senior year. To Jim Delaraye the day when someone will say his name right over the P.A. system at the football games. I also will to my sister Gina all of the good times I had in school and to all of my underclassmates to have a good time and get 'Radical' because before you know it, these ole school days will be over.

LYNN STUCK, do hereby will to Gale Smith my small nose and ability to keep it in my own business. To Jerry Holme's my ability to hassle the percussion players. To my little sister Butch my ability to tell people what I think. And lastly I will to Wally (Jeff Whitworth) my ability to do things and get away with them.

I, RONDA STUMP, being of worn-out mind and tired body will to anyone the ability to get married and go to school, all the luck in the world. To my little Kevin, stay out of trouble with Mr. Blue and have fun with the rest of the years, because the best is yet to come. To Wilbur, a donut in the morning and to the rest of my friend's that I'll be leaving, good luck and stay in touch.

I, LORIE STUTSMAN, will to Tina T. and Tammy M. the ability to have a lot of good times in Goshen without getting caught and to Crystal C. and Theresa H. I leave a pack of gum and the ability to act tough at basketball games. Best of luck to the Class of '82 and may everyone in the Class of '83 have a good Senior year.

I, PATTI TAVERNIER, being of too little mind and too much body, do hereby bequeath my fantastic tenor voice to Troy Benton to use to the best of his ability. To Missy Troyer, I will my job as manager of the varsity volleyball team. I hope she's as good at it as I was. To 'Coach' I will my organizational ability, because he and the team will need it after I leave. And finally to 'Danbud,' I will all my patience, so he can get through all the hassles the teachers give him, and still have a great senior year.

I, DAVID WAGNER, will to my younger brothers Rick and Brad the ability to always be on their best behavior in band, just like I always was for four years.

I, ANN WARD, being of sleepy mind and body leave to anyone that can handle waking up at 8 a.m. and still make it to school almost on time.

I, NANCY WEIDERMANN, being of no mind and body, will to Romy and Crystal the ability to get through all of the classes without doing any work and to Mr. Blue a toga. Also, to everybody else a wild and crazy time in your high school years.

I, MARK WENTZEL, being of un-sound mind and long body, will to my little brother Eric Hiner my room and stereo. To 'Birdlegs' I will her black cheerleading panties that she left in the backseat of my car. I also will to Jill a great senior year and a wonderful life.

I, TIM WILSON, will to my big brother Gary Evansizor my ability to play a mean football game and to try to be tougher than I am, and Timm 'Bud' Morey my ability to run faster when I have an opening on the field to score a touchdown. To Mr. Schneider I leave Gary Evansizor to bug you like I did.

I, LORI YODER, being of sound mind and body, will to my little sister Niki the ability to make it through school and have as much fun as I did. To Joann Yoder, the ability to make it through math class without me, and finally to all my friends, I wish you all the good times in high school that I've had.

I, PATTI YODER, will to Harold and Herman the ability to be great hoers and to stay out of mud holes when there are Germans around, to my sister Cathy the ability to make it through high school, and to EVERY-ONE, nothing but great times in the future. I also wish the best of luck to all my classmates.

Our Book

If our life so far were only like a book, we could put it away when we were tired, and pick it up later on to read about all the characters we admired. Crayons and Play Doh, Duck, Duck, Goose and pictures to trace, all would make up the introduction to our life or the preface.

As we read farther, we'd see triumphs, heartaches, and loving, lifetime friends. We'd get so involved in our reading we couldn't put it down. We hope it never ends!

But as all good things should, this chapter in our life must end. Somehow, some way, we close the book and place it up on the shelf, to pick it up again some other day.

The Last Path

Memories
A familiar word with so many meanings complex, yet understandable.
Now meaning youth, my youth,
thinking of grade school and high school,
old friends and new friends,
Mistakes and victories,
lives and heartbreaks.
Now these times are gone,
No time can change them.
I only have now to walk the last path
wearing the triumphant red and black,
proud to have endured it all.
And now receiving an honor,
Well worth its name.

Back row: coach Pat West, coach Marv Schneider, Paul Travis, Larry Weaver, Dan Morris, Brian Bailey, Marc Todd, Rob Hisey, Randy Blanchard, Tim Wilson, Gary Evilsizer, Scott Bradley, Bob Owen, Tim Cassity, Vince Sommerlott, Randy Lemasters, Todd Knoblock, trainer Kevin Hill.

1981 Junior Varsity Chiefs

EDWARDSBURG-For the second year in a row, the mighty Chiefs shut out the Eddies to start the 1981 season. The score of the game, 39-0. In the 2nd quarter, Gary Evilsizer blocked the punt into the end zone for a safety. Steve Dimos made two of the five touchdowns and Vince Sommerlott, Shane Kistler and Timm Morey made the other three.

COLON-The Chiefs roll on as they strike up another victory for the year. Even magic could not help Colon's defense hold our pressing offense as we steamed by them with 494 total yards. The game ended with a score of 50-0.

SCHOOLCRAFT-The big Red and Black once again blitzed the foe, beating the Eagles 36-0. Tim Wilson added some excitement in the 3rd quarter when he recovered a fumble and ran it back for a touchdown.

BRONSON-The W.P. fans sat through a very chilling 49-0 victory over the fiesty Bronson team. That night will always be remembered as the night the ambulance drivers disappeared into thin air.

CENTREVILLE-Our Chiefs devastated the Bulldogs 62-0. And with Sommerlott's accurate aim and the 'unknown players' quick thinking to tip the ball to Rob Hisey. Hisey made his very own touchdown! All this made the 1981 Homecoming a memorable evening.

CLIMAX SCOTTS-With the highest score so far this year (63-0) the powerful Chiefs blanked yet another foe. The 2nd string played the majority of the game. The highlight of the evening was when senior Danny Morris made a spectacular 39-yard run for a touchdown.

MENDON-After an exciting 4th quarter, the Chiefs pulled through a 28-0 victory. Dimos played a great game by making all four touchdowns.

CONSTANTINE-The most awaited game of the season became the upset of the year as our Chiefs were shut-out by the Falcons 21-0. For the first time in five years we gave up the coveted tomahawk.

NILES-BRANDYWINE-The last game of the year, the Chiefs ended the season with class, winning over the Bobcats 38-0.

The 1981-82 Varsity Basketball team had a successful season, ending with a 15-6 record and a share of the SJV conference championship. First-year coach Terry Strawbridge set the trend for years to come with 'good man defense and passing offense.' Highlights of the year were games over Constantine, Bronson and Mendon. Mark Wentzel and Kasey Strawser were named to the all-conference team, with Wentzel also named to the all-state team. Other individual records went to Steve Dimos, defensive player; Strawser, assists; Rick Deisler, most improved; Wentzel, most valuable player. "Honors should go to every senior for the leadership displayed during both games and practice," stated Coach Strawbridge.

Reaching State this year helped cap off a successful season and was the final note in a somewhat successful career.

The first match at State was a close one, but I came up on the short end, being edged 6-5 by a kid from Benz Central. The second match ended, much to my dismay, the same way. But this time I lost 5-4 to a kid from Addison.

After losing so quickly at State I was totally dejected. But now that I look back I find that I am completely satisfied with what I have accomplished in my career.

I am really grateful to Mike Wozniel for being a friend as much as a coach. I will miss him a great deal. Bruce Baker

As we put these visions together, we tried to fill these pages with memories that will last a lifetime. When you look through this yearbook in years to come, we hope it reminds you of all the good times at White Pigeon High School because high school was such an important part of your life. We give these visions to you with the hope your dreams will always come true and your life will take you on to complete your Double Vision.
