Congratulations Class of 1984

The changes...reaching...dreaming...remembering. The following pages are glistening moments frozen in time...the victories achieved and losses suffered...tests passed and failed...hours of study...the unforgettable year of 1984.

This was a year of protest at WPHS. It started with the banishment of powderpuff football...the cheerleaders' "strike" in an attempt to be recognized as athletes...the discontinuation of a "real" senior trip...and ended with the student council's stand against the administration in hopes that they, as representatives of the student body, could become an actively working council.

In the world outside WPHS, we witnessed the horrifying realization of nuclear war in the television movie "The Day After." We danced to the music of Michael Jackson and we laughed to the jokes of Eddie Murphy. Tickets to the Olympics in Los Angeles were almost as hard to get as Cabbage Patch Dolls while the hardest thing yet was telling whether or not Boy George was really a boy.

All these events have been only a background for the 111th graduating class of WPHS But it is one year we will never forget.

Good afternoon and welcome to the commencement exercises of the Class of 1984. As I stand before you today there are many things I want to say. In a way, they are the same things that are said every year, but to the Class of 1984 I hope my words are unique because I am saying them to you.

Not only is this an important year for us seniors, it is also an important year for the United States, as we were reminded four days ago. Many of us sitting here today saw the torchbearer carrying the Olympic flame through our community on the way to the Summer Games in Los Angeles. Athletes from all over the world have been training very hard. They each have their own set of well-defined goals. Every athlete needs something to strive for, just as every individual needs something to strive for.

Each graduate sitting here today has strived and achieved. I know I speak for all of the graduates when I say that we are proud to be here - proud that we have worked diligently the past thirteen years towards the achievement of a goal that has been in the back of our minds since the day we began our educational career.

Even though one goal has been realized, we must not give up. This graduation is just a stepping stone from one phase in our life to another. We must continue to set goals for ourselves. I know most of us have been making a lot of decisions lately.

This year has been one of the hardest of my life because of all the responsibilities and decisions that I have encountered. Whatever you choose to make your goal, do your best to achieve it, for the hard work you put into it will reflect upon you and success will be yours.

Success may not come at first. The old saying "if at first you don't succeed, try again" is very true. Everyone makes mistakes and all of us have failed sometime in our life. We must always keep in mind, though, that we can learn from our mistakes and the next time we will know just what to do.

In a way, living life to its fullest potential and striving for high ideals can be compared to the athlete searching for excellence in athletics. The Olympic Creed reads "The most important thing in Olympic Games is not to win, but to take part, just as the most important thing in life is not the triumph, but the struggle. The essential thing is not to have conquered but to have fought well." What the creed says is true. Winning isn't everything. If you know deep in your heart that you have done your best, then you have won.

Just as the athletes of the Olympics have sponsors and supporters helping them to reach their goals; we, the graduates, also have people that have supported and stood by us throughout our school years.

First on that list is our parents. They have been there listening to our problems and helping us with the answers. In a way today is a bit sad. We are all stepping into the adult world. No longer can we live with our families as we have in the past.

Most of us will be leaving home by going to college or by getting a job and a place of our own. Today is the ending of the first phase of our life; we must say goodbye to it, but will always cherish the memories. I know I speak for all the graduates when I say "thank you" to our parents and families for all the good years we have shared.

The teaching faculty at White Pigeon also deserves a hearty "thank you." They are the base of our growth and have given us the education that has enriched our minds and that will provide a greater understanding in the years to come. When most of us think of teachers, we think of homework, exams, and research papers. If we take time to think about it, though, we realize that we have become more than just students to teachers. We have become friends.

Having lived with two teachers, I know how teachers feel about students and what they put up with at times. They put up with quite a bit, but in the end they feel the satisfaction of seeing us here, knowing that they have taught us well.

To all the underclassmen: I wish you much happiness and I hope that you have as many good times here at White Pigeon as we have had. Remember to enjoy yourselves and to take part and be active. I know it seems like you have all the time in the world. I thought so too, four years ago, but time really does fly and here I am giving the most important speech of my life.

As I look around today and see my friends sitting here, I remember times back when we were kids in elementary school and I realize that we have grown together. We have shared the good times and the bad and through it all we have each had our own separate dreams.

We must continue to dream; for without dreams our lives are meaningless. Just as the athlete dreams of participating in the Olympics, we, too, must have our dreams. It does not matter how impossible the dream may seem; for if a person is willing to work for it, dreams can come true.

Finally I want to thank each one of my fellow graduates. Together we have made so many memories and shared so many important moments. I wish you all happiness and success in the years to come. Best of luck to the Class of 1984.

Kim Bargwell
Valedictorian
To the faculty and administration: As so many of you have expressed, we have not been the easiest class to guide through these learning years. I would like to thank you for all the knowledge you have given us. And when we look back in years from now, we will always remember that what we have made of ourselves has been built on the foundation you laid for us.

To the many friends we are leaving behind: You'll be up here some day, too, with all the same thoughts running through your minds. I wish there were something I could say to make the time not seem so endless, but when you stand here one day, you'll wonder where all the time went. Although through life, friends will come and go, I will always cherish our friendship and I know I speak for the class when I say "We'll miss you."

Finally to my classmates: We have come such a long way in the time that we've known each other. We've given each other encouragement and have accomplished things that we never thought we could do. I have become a better person since knowing you. You have given me many things which I will treasure for a lifetime, and the most important thing of all is the gift of your friendship.

I wish there were some great words of advice I could give you for success in your dreams throughout your lives, but the words I have are only simple. It was only a couple of years ago during what was then a major teenage crisis that a person very special to me gave me this very simple advice. He simply said "You'll make it." And I know you're going to make it. It may take time and hard work. You may become frustrated and at times you'll feel like giving up. Sometimes you may even wonder if your dreams are really worth it. But I have confidence in you, and I know you'll make it, if you try.

In closing, I would like to take a very, very special moment of silence for one of our classmates who could not be with us today. We miss you, Greg.

Julie Nottoli
Salutatorian
time in our lives when we felt what had happened to us just wasn’t fair and asked the question... “Why Me?”

Many of you are familiar with the illness of our class treasurer and good friend Greg Bontrager. Greg has been dealt one of life’s cruelest blows—that of a rare type of cancer.

Greg is not here to share in this special ceremony, but he will know how much we miss him and are thinking about him as he is receiving treatment in Maryland. Graduation is a traditional time to offer good luck, best wishes, and special prayers for the future. Today, let us dedicate our prayers and good wishes to Greg and his family. We want Greg to be the recipient of this special gift on his graduation day.

In closing, I would like to say congratulations to everyone in the Class of 1984, and wish all of you good luck in whatever you do with the rest of your lives. I am proud to call myself a member of the Class of ’84. And I’m sure this feeling is shared by you, my classmates.

Looking back on this past year, each of us has our own personal memories that we will carry with us forever. Of course, I could not cover all of them in these 148 pages, but I hope this book will help you remember at least a small sampling of the events and people that made up this year.

I would like to express my thanks to the staff and to Mrs. Moormann for being there to help put these memories together...And to everyone at WPHS, thanks for your support. May the memories in this book bring a smile to your face and a tear of joy to your eye.
