easier. In your journey through life, keep this
phrase in mind: "The only reward from

**White Pigeon
Methodist Church**

Tragedy struck on September 11, 2001
and our lives were changed forever.

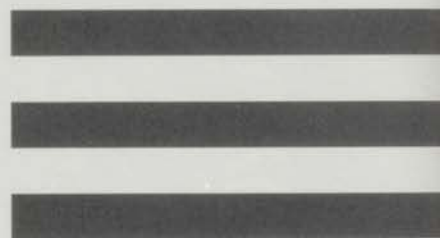

It is easy to become embroiled in hate just as the perpetrators of this event were, but as Christians, we are called by God to something more. We are called to forgive. We can't get forgiveness from God without also forgiving others. This is clearly stated in the Lord's prayer (Matthew 6: 12-15). The prayer of St. Francis also challenges all of us. "Make me a channel of your peace. Where there is hatred, let me bring your love. Where there is injury, your pardon, where there's doubt, faith; where there is despair, hope; where there is darkness, light; and where there is sadness, joy. O Divine Master, grant that I may not so much seek to be consoled as to console; to be understood, as to understand; to be loved, as to love; for it is in giving that we receive, it is in pardoning that we are pardoned, and it is in dying that we are born to eternal life." We will rise above the tragedy of September 11th and with God's love we will become instruments of his peace, not hate, in the world.

WANT TO EARN MORE MONEY? DON'T STOP LEARNING

According to the latest U.S. Dept. of Labor "Futurework" report, the best way for a secure, higher income future is with more education and skills. Be skilled and not "stuck" in the new economy, they said.

- *The Futurework report added:*
In 1979, the average college grad earned 38% more than the average high school grad. Today, a college grad earns 71% more!
- Real average wages in the high-tech industries increased 19% since 1990, but wages in the non-high tech job sector as a whole grew 5%.
- The average high-tech job pays 78% more than the average non-high tech job (\$53,000 vs. \$30,000). Learn high tech skills in Glen Oak's state-of-the-art computer labs.
- Real wages for men without post-high school education have declined significantly over the past 20 years. Men with only a high-school diploma have seen their wages fall 1/5th (from \$679 per week to \$559). Wages for men without a high school diploma have fallen by nearly 1/3 (from \$555 per week to \$383) since 1979.

This Little Light of Mine

Let it Shine On

Ode to Friends....

I can't believe it's finally here
We've waited so long for our Senior Year
We all worked so hard playing this game
This time next year things won't be the same

Some of us will leave and some will stay
Some will go to school and some will work all day
We may see each other every now and then
Wishing things could be as they once had been

Some things we've done I will regret
But one thing's for sure I'll never forget
All the fun times we've spent
I can't believe how fast it all went

Years down the road I'll look back on my past
And glance at a picture and wonder when I saw you all last
As the years pass we'll all grow apart
But you all will be in my heart
